A STONEDEKS
DEALER**

Thank you for your interest in becoming a StoneDeks™ System Dealer.

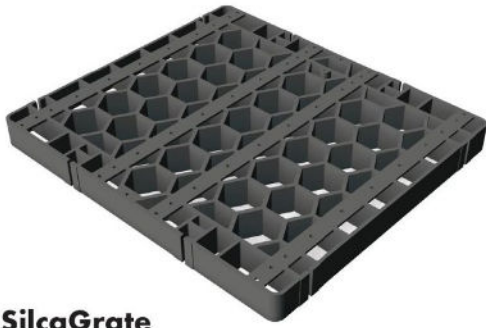

The StoneDeks™ System is transforming the decking and hardscape industry with our innovative design, offering unlimited options to create a customized outdoor living environment using natural stone, concrete and brick pavers and porcelain pavers of all colors, shapes and textures.

The StoneDeks™ System Dealer Program is specifically designed to increase your hardscape sales by equipping you with these vital tools:

- Excellent Customer Service
- Technical Support
- Referrals
- Listed on our website
- Literature
- Show Room Floor Display
- Available inventory (short lead times)
- Training for your contractors and sales personnel

SoilGrid
In-ground applications

TERMS & PRODUCTS

StoneDeks™ Dealership Terms:

- Fill Out Dealer Application
- Requires Sales Tax ID
- Each pallet has 186 Silca grates totaling 372 sf; average size deck is 400sf to 500sf
- First order prepay by Credit Card
- Credit Terms available upon approval

Brief Product Descriptions:

SilcaGrate - the core of our entire StoneDeks System. You can use this durable sub-flooring grate to apply stone to almost any hardscape or deck design.

SilcaSpacers - Designed to perfectly fit with various stone, porcelain and pavers of all types and our SilcaGrate™. The SilcaSpacers™ come in three different variations; flexible, black rigid and clear rigid.

SilcaMat - A pervious rubber underlayment that can be used between the SilcaGrate™, porcelain pavers and stone or pavers to deaden sound and help reduce movement of the pavers or stone while still allowing moisture to drain.

SoilGrid - A heavy-duty, interlocking grid system that allows you to build stronger hardscapes by stabilizing the base material, perfect for patios and walkways, pool patios, or any other ground-level application where you need a stable base for your hardscapes.
