THE OPPORTUNITY: The Growth of the Decking Industry

The decking industry is projected to reach \$9 billion dollars in sales in 2027.

The hardscaping industry is projected to reach \$10 billion dollars in 2027

NOW YOU CAN GAIN YOUR SHARE OF THAT
MARKET WITH THE STONEDEKS SYSTEM!

What is the StoneDeks System?

A sub-floor for any type of paver from $\frac{3}{4}$ " to 3" on any elevated structure.

Where do I use StoneDeks?

The following are examples of areas where you can save on labor and materials as well as offering the homeowner more options for their projects:

-  Elevated decks
-  Patios
-  Pool decks
-  Rooftops
-  Docks
-  Any elevated structure with 16" On-Center Joist framing

The **Silca Grate** is manufactured in the USA to the highest standards

Supported by proven Engineering and Certified testing & evaluations

20-year Residential Warranty

10-year Commercial Warranty

ADVANTAGES OF STONEDEKS SYSTEM

- Helps you get jobs and make profit
- Provides a “good” (wood)
“better” (composite)
“best” (porcelain/stone)
option to the customer
- Non-proprietary system
- Reduced maintenance and increased durability
- Saves time and money

ADVANTAGES OF STONEDEKS SYSTEM

- Create tiers and stairs without backfill
- Eliminates settling
- Complete jobs in areas with limited access
- Provides access to septic, water lines, and other utilities
- Compatible with any under-deck drainage system available
- Match a deck or balcony to existing hardscapes
- Match interior tile to exterior tile
- Fireproof surface

Silca SoilGrid

Hardscape Installation With Silca SoilGrid

The Silca SoilGrid is a heavy duty, interlocking grid system that allows you to build stronger hardscapes by stabilizing the base material.

Advantages Of Silca SoilGrid

- Permeable ground reinforcement
- Up to 50% base reduction in excavation
- Less materials to haul away
- Reduced settling issues and warranty call backs
- Easy installation process
- Wider pin-point load dispersal

Where do I use SoilGrid?

The following are examples of areas where you can save on labor and materials as well as offering the homeowner more options for their projects:

-  Patios
-  Walkways
-  Courtyards
-  Any area that has poor soil conditions
-  Any area where permeability is required
